Magna Natura PURE CORKWOOD SPECIALIST

Art & Concept Furniture

Magna Natura, through the hands and expertise of our master craftsmen brings out the singularity and unique identity in every piece of pure corkwood, revealing its nobility and allowing us to achieve timeless artifacts filled with emotion. We pursue the objective of perfectly combining nature in its purest state with the most sophisticated trends of decoration.

Alentejo is a Magna Natura composition created to become a unique and significant representation of the moment experienced by the designer when in Alentejo (Portuguese region) they observed the stars upon the cork oak trees. With elegant design, brushed steel becomes starlight reflection on the cork oaks, merged with corkwood, in tune with the hills on the landscape.

It is a timeless work of art, designed to serve as a candleholder. More than an owner, Alentejo will have a caretaker until it is passed on to the next generation.

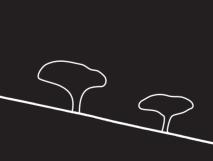

Alentejo is the first numbered (100 units) limited edition of Magna Natura. It comes with a certificate of authenticity.
